CHECKLIST of Required Items for MacOS X trade (see page 2 for details and and Frequently Asked Questions)

1 <input type="checkbox"/> This form completely filled out with RMA at top. The RMA must not be more than 10 days old.
2 <input type="checkbox"/> <u>Unlocked SentinelKey</u> with Mac/Win SoftKey uninstalled -or- with Pocket RCT 4.1.5f1 or later deactivate code. Please send your SentinelKey with trade if your serial number is below 10000 or above 100,000,000 (Pocket)
3 <input type="checkbox"/> Copy of original RCT receipt (not an upgrade receipt – only required if you did not purchase directly from RPS).
4 <input type="checkbox"/> RCT upgrade proof (if applicable, upgrade receipt, Getting Started Manual or CD are proof of purchase)

Shipping your new RCT copy to you: We normally ship items within one or two business days if everything is in order. To avoid any delays please read the following and make sure your paperwork is COMPLETELY and accurately filled out, and you have included PAYMENT for SHIPPING and all required items. Michigan residents please add 6% tax.

Return Merchandise Authorization (RMA) number! (Required only if you need to send us a SentinelKey)

Please make sure to put the RMA number on page 1 above, AND on the outside of the package. RMA numbers are only valid for 10 days from issuance, please call or email for another if your RMA older than 10 days. We want to be prepared to quickly and efficiently serve you, but we can't if we don't know who is shipping what and why. We might be away on vacation or at a PTG convention, which might mean we miss your shipment, or have to delay our normally quick service. We'd like to advise you on shipping and insurance (see below) to avoid loss of any item.

Note: After shipping your trade please email the tracking number to: rctsales@reyburn.com

Important Shipping Instructions! READ BEFORE RETURNING SENTINELKEY TRADE-IN!

Please note that until your trade-in arrives at our door it is your responsibility. In other words, we can't credit your account unless and until it arrives at our place of business in good condition. Please pack all items carefully and insure your trade-in for full value (up to \$1000). We strongly recommend sending your trade-in using a method that has a tracking number and requires a signature when it arrives such as (in order of preference) Fedex, UPS with full insurance and Signature Required service. Do not send DHL, regular post or USPS as it will cause delays.

Shipper is responsible for all shipping charges, destination duties or taxes including brokerage and surety bond fee.

Cross-grading but wish to keep your SentinelKey and copy of RCT for a while? You can keep your old RCT working for up to 30 days, then send in your trade. In this case we charge you the full RCT price up front, then credit you for the trade later. However, sending the SentinelKey trade later reduces trade-in value by at least \$100.

SentinelKey

If your SentinelKey serial number is below 10000 you will need to return your SentinelKey to trade for RCT MacOS X and a new SentinelKey. RCT for OS X only supports "Wibu" brand SentinelKeys. Your SentinelKey should be unlocked (unless you are returning the hard drive or computer also). See your RCT manual for how to unlock the SentinelKey and uninstall SoftKey. The SentinelKey must be unlocked for trade-in to receive full credit.

Can't unlock or deactivate your SentinelKey before sending your trade? If you need to trade a locked Sentinelkey without sending the hard drive or Pocket PC to which it is locked, add \$200.

Pocket RCT SentinelKey: (

SentinelKey must be deactivated with Pocket RCT 4.3.5f1 or later. An 8 digit deactivation code will be displayed (write it down) showing that Pocket RCT was properly deactivated from the machine. The code MUST end in 3 or greater. The SentinelKey must be deactivated for full credit. Exception: send the old Pocket PC on which Pocket RCT was running. We don't normally return the old machine unless requested. Deactivating RCT and return the old Pocket PC costs \$50 + s/h. To Deactivate: Tap Start menu, Settings, System tab, Remove Software. See instructions on page 2-3 of the Pocket RCT 4x Getting Started Manual.

Complete Instructions for uninstalling RCT for Win/Mac SoftKey are on page 10 of the RCT (145 page) manual. Please note that uninstalling the RCT software does NOT unlock the SentinelKey from your computer. You must use RCT itself to uninstall SoftKey and unlock the SentinelKey. SoftKey can be uninstalled by attaching the SentinelKey, then choose SoftKey from the RCT edit menu. Press the [Uninstall] button. To be assured that SoftKey is uninstalled and the SentinelKey is unlocked you must get the message "SoftKey is uninstalled. The SentinelKey is now unlocked...". If you don't get this message, SentinelKey is still locked.

Cross-grade and trade-in pricing applies only to Registered RCT users who purchased directly from an Authorized RCT distributor. If you purchased a "used" copy from a private party you will need pay a registration fee.
