 If this form is not complete your shipment will be delayed!

Please: BOXED IN AREAS on Page 1 MUST BE COMPLETED TO INSURE FAST SERVICE!

Note: This form is *required*, a completed copy must physically accompany your SentinelKey (not faxed or emailed). If we receive your SentinelKey without this form we will add a \$50 service charge. Sending this form lets us quickly ship your new key!

Shipping your new RCT copy to you: We normally ship items within two business days if you have followed these directions carefully. To avoid any delays please read the following and make sure this form is COMPLETELY and accurately filled out, and you have included PAYMENT for SHIPPING and all required items. Michigan residents please add 6% sales tax.

Return Merchandise Authorization (RMA) number REQUIRED!

Please contact us for an RMA number and make sure to put the RMA number on page 1 above, AND on the outside of the package. RMA numbers are only valid for 10 days from issuance, please contact us if your RMA is older than 10 days. We want to be prepared to quickly and efficiently serve you, but we can't if we don't know who is shipping what and why. We might be away on vacation or at a PTG convention, which might mean we miss your shipment, or have to delay our normally quick service. We'd like to advise you on shipping and insurance (see below) to avoid loss of any item.

Note: After shipping your trade please email the tracking number to: rctsales@reyburn.com

Important Shipping Instructions! READ BEFORE RETURNING TRADE-IN!

Please note that until your trade-in arrives at our door it is your responsibility. In other words, we can't credit your account unless and until it arrives at our place of business in good condition. Please pack all items carefully and insure your trade-in for full retail replacement value. We strongly recommend sending your trade-in using a method that has a tracking number and requires a signature when it arrives such as (in order of preference) Fedex, UPS. We do NOT recommend DHL, USPS or regular post service because of the problems collecting on insurance.

You are responsible for all shipping charges, destination duties or taxes including brokerage and surety bond fee.

Pocket RCT SentinelKey: (No trades without sending SentinelKey!)

SentinelKey must be deactivated with Pocket RCT 4.5.5f1 or later. An 8 digit deactivation code will be displayed (write it down and enter it on the 1st page of this form) showing that Pocket RCT was properly deactivated from the machine. The code MUST end in 3 or greater. The SentinelKey must be deactivated for full credit. Exception: send the old Pocket PC on which Pocket RCT was running. We don't normally return the old machine unless requested. Deactivating RCT is free, but to return the old Pocket PC costs \$25 for s/h.

To Deactivate: Tap Start menu, Settings, System tab, Remove Software. See instructions on page 2-3 of the Pocket RCT 4.x Getting Started Manual or on our web site at www.reyburn.com/faq.html

Note: If we receive a SentinelKey which has not been deactivated, and the old machine was not sent, we can not proceed with the trade. You must provide a deactivation code or the old machine (we will deactivate at no charge).

Mac/Windows RCT SentinelKey: (No trades without sending SentinelKey!)

Your Mac/Win SentinelKey must be unlocked to trade with full credit. If you can't unlock the SentinelKey you can still get full credit if you return the computer or hard drive with the key. Note that we don't normally return the old machine or hard drive. Uninstalling the RCT software does NOT unlock the SentinelKey from your computer. You must use RCT itself to uninstall SoftKey and unlock the SentinelKey. SoftKey can be uninstalled by attaching the SentinelKey, then choose SoftKey from the RCT edit menu. Press the [Uninstall] button. To be assured that SoftKey is uninstalled and the SentinelKey is unlocked you must get the message "SoftKey is uninstalled. The SentinelKey is now unlocked...". If you don't get this message, SentinelKey is still locked!!

Upgrading your RCT software

If you need to trade your SentinelKey you must upgrade to the latest platform licensing! See www.reyburn.com/rctupgrade.html for pricing.

Cross-grade and trade-in pricing applies only to Registered RCT users. Others will need to pay a registration fee, see: <http://www.reyburn.com/supportpackage.html>
